

Covid-19 Statement

The global effect of Coronavirus (COVID-19) continues to evolve. 1932 Reserve and The Reserve Lofts remain firmly committed to the health and safety of our guests and associates. We continue to closely monitor the changing situation and comply with public health guidance.

As new information becomes available, management is keeping our associates well informed so they can respond swiftly and appropriately. While the circumstances continue to change and we modify our operations as necessary, we thank you for your patience and cooperation. As new developments occur, be assured we are committed to taking care of our guests and associates and to our mission of providing exceptional service.

We extend our sincere thanks to our Restaurant and Lofts guests for their ongoing support and loyal dedication during this challenging time.

Always, we urge individuals to exercise healthy behavior best practices to reduce the risk of getting viral infections, such as:

- Wash your hands often with soap and water for at least 20 seconds.
- Avoid touching your eyes, nose, or mouth.
- Avoid close contact with people who are sick.
- Cover your mouth and nose with a tissue when you cough or sneeze, then throw the tissue in the trash and wash your hands.
- Clean and disinfect frequently touched objects and surfaces.
- If anyone in your household gets sick with flu-like illness, the CDC recommends staying home for at least 24 hours after the fever is gone without the use of a fever-reducing medicine.

Thank you for your patience and trust in 1932 Reserve and The Reserve Lofts. We are prepared to navigate through these challenging circumstances with your health and confidence at the forefront of everything we do.

We look forward to your next visit and to serving you soon at 1932 Reserve.

-All of us at 1932 Reserve
